near Gisborough in Yorkshire

Dear Sir.

I receiv'd your obliging Letter of the 19.th Inst. and thank you for it, as well as for all your favours of that kind while you was abroad. I had sooner wrote to you but I was willing first to have S.^r Robert de Noville's Ans.^r to the Enquiries he was desired to make concerning an Impression of the New Testament in Arabick which Mons.^r Boucher tells me you was very kindly Solicitous to promote. I have at last receiv'd S.^r Robert's Ans.^r but tis far from being full, & therefore by order of y^e Society, I have sent Instructions to M.^r Hastings a member of our Society now at Utrecht, to perfect the S.^r Enquiries. In the mean time, the draught of a Proposal for Carrying on this undertaking is now sent to the Press and may I hope be ready for the Society's Approbation at their next meeting this day or night: unless the prospect of any further material should oblige them to defer it. And among the names of several members propos'd to be inserted at the end of it as Receivers of Benefactions in imitation of what you was done at y^e End of y^e Last Volum. of Letters relating to the Malabar Mission I am order'd to desire you would give ~~me~~ ^{for} leave S.^r inserting your name w.^{ch} I hope you will not decline giving, since S.^r John Phillips M.^r Doctors, & several other worthy members of y^e Acquaintance will bear you Company.

My Lord Chancellor was pleas'd this week to signify his opinion by one of his Chaplains (M.^r Pearce) that in point of Law there is nothing to be objected to the Society's method of Collecting Benefactions for the Purposes above mentioned.

I am very ~~very~~ much concerned to hear of the continuance
of your Ague and have therefore Subjoin'd a Rec^t. against
that distemper w^{ch} has been often beneficial even in Cases
where the Bark has Failed.

S^r John Phillips is gone to his Lady to Pombrook st.

Mr. Dollins is well & returns his humble Service to you
as does Mr. Shute &c^a. Particularly in hopes of enjoying yr.

My most humble Service to your Sister whom I have
y^e honour to be known to, and be assur'd that.

being a rough draught on 2. Sheets of Paper. as to Götius

Types if they are in being would be fit for our use, but
whoever has the Types has also very likely the matrices or

he desires may be enquir'd after being as he thinks far more
beautiful than ^{either} the specimens you sent over. And for other

Dⁿ. Bridges was wrote to the 20. October. a 2^d. Let^r. to desire his
opinion concerning the Proposal for printing of N. Test: in

20. Oct. 1720. Wrote to S^r. Tho. Lowther & Jⁿ. Wilkins second
Letter for leave to insert their names at the end
of the Proposal for Arab. N. Testament.

To the Rev. Mr. Fox

the Devil's with.
Rev. Sir

I hope this finds you safely returned to your
family and that you continue to wish well to the Consultations of
the Society notwithstanding any disgust which you may have
apprehended on account of the Little Tract which they have
declined

declined Dispersing for reason formerly mentioned. And
hope you may one time or other think it worth your while
to obviate the Objections made to it, even though you should there-
by do Violence to your own inclinations rather than so usefull a tract
for the design of it should not be generally dispersed as any other.

According to your desire when in Town 25 Poor mans Help &c^a have
been left for you at your Brothers which at 7 each comesto 175.

The Proposal for the Arab N^o Testament &c^a is after many debates
near brought to Maturity, & tho' it comes into the World when it finds
many of the Rich People in great distress, by Reason of their late
Disappointments in the South Sea Project, perhaps it may not fare the
Worse. Considering how little it would have been encouraged by persons
intoxicated with advarice & if they are not quite undone may proba-
bly Contribute more to it now, than if they had Continued in their
golden dream of Prosperity.

Every Day discovers new and sad effects of this amazing Calamity,
which has confounded the Wisdom of y^e Wise and Buried many an
avaricious Man in the Pit he had with great pains dug for his Brothers,
and yet I fear we must see greater Calamities before we shall be brought
to a just remorse for our National Crimes, & to an Acknowledgement
of the righteous Judgment of the hand that chastizes us GOD
Prepare us for his holy will.

Dear Sir

I received yours of y^e 25th Cur^t. N. 3 & having communi-
cated this day to y^e Committee, they have orderd me to let you know
the sense they have of their obligation to you for your care
in soliciting the Arab. New Testam^t Affair. They have likewise con-
sidered Mr. Van de Waters Proposal, but as it is a matter of
moment they have been agournd the further consideration
of it to this day tonight, in which time they can confer

of the Arch Bp and the Society thereon; In the mean time
I may acquaint you that M^r. Negri finds abundance of faults in
the Letters of the 3 Specimens you sent over (compared with the
Arabic /Galter which you saw here) Which he says will never
pass in Palestine, & that on this, the Success of the undertaking
very much depends. M^r. Van der water's Proposal is the farthest
they have had yet from Holland and 70 odd Pound Cheaper than
what is offered here, but then if upon Consulting those who are
like to be great Benefactors to the Society should be of Opinion the
Subscriptions will be abated much more than that advance
comes to by reason of its being done abroad: This will alter the
Case & is what they desire time to Consider, but I hope they
may be able to take a final resolution hereon by this day
evening.

I forgot in my last to inform that if Rev. M^r. Doane
My L. Chancellors Chaplain requests by M^r. Negri that you
would be pleased to buy for him & bring over at your return

Novi Testamenti verba Armonia in 8 Vols.

M^r. Negri also begs you would not forget the 2 Books of W^h
he gave you a Memorandum and if they are to be read in
Quires they will save our Cartomorph here by of bound

Pray let me know in your next whether my Letters go frank
to you having put them hitherto under Cover to S^r. Rott & Newville

25. Oct. 1722.

Honoured and Dear Sir

I received last Week a Syriac N. Test. & Lexicon mentioned in your Letter of the 3. of Last month, & have showed the Copies to Mous. Nopri, who says y^e Work is very elaborately performed with great accuracy & judgment on y^e part of the Professors who had y^e care of it, but that y^e Syriac Character wants y^e beauty which y^e Eastern Nations Love to see in all attempts to imitate their fine Manuscripts by Printing, And even y^e specimen out of Arab. Characters, all that we can yet get from Amsterdam of 3 different sorts, besides yours at Leyden are all condemned by him as what will never pass in Palestine.

You don't tell me whether these Copies are at y^e request to the Society? or from whom? if they are not, pray let me know & I shall do with them?

I repeat the thanks of the Society for your kind present, to them of Expositus's N. Testament in Arab. which will be of use to them when they come to compare it with other Copies in order to judge of y^e most perfect for their Purpose.

The Society have not yet taken a final Resolution whether to print it in England or Holland, Because that depends on the Beauty of the Character, & y^e Terms in either Country, & the inclination of the generality of their subscribers which cannot presently be known.

I have acquainted y^e Society with your Proposal for disposing of some of y^e Syriac N. Test. & they have referred it to y^e consideration of a Committee but considering the Bulk & Price of y^e Edition & y^e Edition in Arab. will engage all y^e fund which they can at present raise for that undertaking I can give your friend little Encouragement to Expect Custom from us, except out of Curiosity.

Rev. & Dear Sir,

Give me leave to admonish
you for y^r. impatience signify'd in y^r. 2. Last Letter. If Pro-
-vidence has cast y^e. Lot among a perverse People to
learn Resignation to the Divine will, meekly under affronts,
Patient to endure contradiction, in order to qualify you for a
greater Trust. I'm sorry to find you soaverse to profit by
those Lessons, the want of which perhaps may be a great
reason why you are detain'd as it were a prisoner in such
disagreeable Company. I cannot imagine how the people
refusing so small an Expence as 50. Shill^{ts}. towards fitting up
a School Room for the Charity Child^{en}. must necessarily put you
upon destroying y^e. self. If you have by a pragmatical
domineering conduct (pardon the expressions for I can't help con-
-sidering your case in such a light from y^e. own Letters) laboured
to extort the Benevolence of y^e. Neighbours in a matter
wherein they were intirely free to do, or not do according as they
were inclin'd, consider whether you have not industriously brought
upon y^e. self the contradictions you groan under.

There are many good men in the world that next to the Grace
of God on their virtues, and even their patient^{ly}. to some such
afflictions as you complain of; A Scolding wife, Impious Parents,
Undutifull Child^{en}. Misdemeanors & spitefull Neighbours are all Blessings
to the man that considers 'em as chastisements from Heaven, to
refine his Nature, and to adorn him with the Graces of an Angel;
who has the art of circumvention so well as they that are
liable to be insulted for every fault. If a man is too loquacious
he soon finds his mistake & grows as ~~calm~~ as a Lamb among
a verbose noisy people. If a man has too high an opinion
of ~~himself~~ his own parts, & ability to govern all mankind if they
would but tamely lie at his feet, where is he so likely to acquire
a just sense of his weakness on these accounts as among a forward
& contradictory generation of men.

Dear Sir,

Dear Sir, I am fully & self to trust in God, be content to make
short sermons, and to write short letters, and let your
conversation be as edifying & as useful as possible, when
you have gained these points over yourself depend upon
it, you will be counted to accept of a translation to a more
agreeable living: I took of freedom to say something to
this effect some months since, but you would not believe

several usefull Instructions here and there in the

concern the Society or their Correspond^{ts} at Aleppo

be pleas'd to take notice of them, with the same
regard as if they were repeated here.

✧ The Society were not a little pleas'd to hear by ^{yo^r Letter to the Socy} S. Y. V. of your

 beautiful characters given by the Rev. W. Lisle

quest you would procure a Specimen of ~~the~~ the
Arabic Types wh. W. Vander Aa has the Matrices of at
Leyden, which he purchased of Elzevir's Widow
and also what would be the charge of purchasing
either the Matrices themselves, or a New Font
made from them sufficient for composing ^{3. or} 4.
sheets of ~~paper~~ at once supposing there might
be occasion for so many to be composed at
one time; ~~for one large Font is as good as 3. or 4.~~

ness of these Types wh. 'tis hoped may be equal
in Beauty to the Polyglott Types, and yet so much

leper as to bring the N. Test. into one more sizable
volume; ~~and~~ notwithstanding any contract made here
for the types may be had at home or abroad as
the Society shall find most convenient for their
purpose, and if those you mention may be had on
reasonable Terms perhaps they may purchase either
the Matrices, or types cast from them, but before any
judgm^t. can be made of them they would be
glad to see a specimen ~~of them~~ ^{printed off them} either of the
whole Alphabet, or of a sentence in the manner
as you sent from Utrecht.

It is very likely that W. Vander aa will not care
to part with the matrices, ~~therefore~~ if he finds they
^{may be} ~~can~~ be ^{wanted} to cast a Font ^{in Holland} ~~there~~, therefore it is
left to y^r. discretion to agree that matter with
~~him~~ first if you find him inclin^d to part with
them, because if his demands are reasonable per-
haps the value of them may be revisited over
before you leave Holland, and you can bring
them with you; for the whole will not be above
3. or 4. pounds weight. Pray ^{inform yourself} ~~enquire~~ & let me
know in y^r. next the number of Matrices he has,
including the alphabet and all the variety of
points & distinctions that belong to them.

that if I had known how to write to him, I should have desired

to have the same opinion of him as you have. Pray desire him
to do this as soon as he can because the Society have occasion
just now for an able Schoolmaster to send to Bombay in the East
Indies. Let me know his age, whether he is a Personable
man and whether he be acquainted with Mr. Dixon at Bath
and be a Single or Married Man?

relates to your want of Books for your School upon which he

There were sent yesterday to Car. p^t directed to you at Neath under a cover to Mr. Gardner at the Colston's Hospital in Bristol S^r Humphrey's Correspond. to be forwarded by him to you & will I hope reach your hands in good time safely.

S^r Humphrey is very much concerned at any uneasiness you have suffered since you have been at Neath and tho^t he cannot write often he has given general & positive orders to his Steward at Neath to supply you with Money and other accommodations according to what you had reason to expect without waiting for farther orders from him.

S^r Humphrey relies on your prudence to pursue all the proper Measures for establishing y^e School there and when that is done and a representation made to him of the Names, Age, and quality of all the Children and that constantly with there being well instructed you can also instruct others whose Parents are able to pay for their Instruction I am satisfied he will readily consent to any reasonable proposal you can make for your advantage.

I suppose your Sister inform'd you that upon my reading to S^r Humphrey your Letter to her he paid to me 10 shillings for a use you apply'd it to in Town

Sir

Manchester court. 7. March.
1720.

I have read Mr. Disney's Letter and in Answer to
his 5. Queries about y^e University of Hall I have the follow-
ing particulars to offer. 1. As to the Students of Philosophy
being brought up in the exercise either of the Lutheran or
Calvinistical Religion, I don't think they can be said to be
brought up in either. The University is indeed Lutheran
and all the Divinity Professors Lutherans but the Professors
in the other faculties are of both kinds but trouble themselves
little with the Tenets of either. There are in the Town
both Lutheran and reformed Churches so that foreigners have
their Choice & the Present Divinity Professors are men of
that Moderation & so little addicted to the peculiarities
of the Augsburg Confession that it is the least of their
thoughts to make scholastics and when they come to
explain those parts it is with so much temper that it can't
give any offence to any adverse party & the University of
Hall tho' the last erected is much upon the same foot wth
all other foreign Universities and consequently the Stu-
dents are under very little regulation or restraint.
If they commit any public disturbances they are punished
by the Vice Chan.^r but little care can be taken as to
their morals, as might be done in ours. The Theo-
-logical Faculty has assumed a greater power
over the Divinity Students obliging them to appear
at

48

at certain seasons before their whole Faculty, to receive their advice and direction as to their method of studying, what lectures to frequent and sending them as often as they hear they are irregular or immoral in their way of living or careless and neglectful in attending their lectures. Thus the Students of Divinity are oblig'd to submit to for fear of being refused a Testimonial of their good behaviour & Learning necessary when they take orders, or get any preferment.

3^{ly} The best time that can be given a young ~~Student~~ Gent. (who is supposed to be already a good Latin Scholar and a tolerable Greek one) to go thro' a course of Philosophy to learn Hebrew, Chaldaic (for which and all the Oriental Languages you have the best Teachers) and the several parts of Divinity according to the methods generally prescribed there, is about 4. years, and during that time a person of tolerable parts and application may be qualify'd for Holy orders; but they have no fix'd time prescribed them.

4. The 1st Degree that is taken is that of Master of Arts, which may be taken after 2. years standing tho' there is no limited time, it being left to the discretion & judgment of the Professor. The 2^d of Laws Degree is frequently taken

taken after 3. years standing but never by
Divines. The D.^e of Divinity Degree is
seldom given till the candidate has some
considerable ^{living or} preferment.

5. 80. l. Ham. will maintain an English
gent. at the University very handsomely
including books and all necessary charges.

I hope this may be sufficient for the
present, if Mr. Disney has any thing
else he desires to be inform'd abt. wherein
I can give him any light he may

The occasion of giving you this trouble is at the ^{earnest} desire of
Mr. Jennings who subscribed for 20 Welch Bibles and paid you fifty
shillings advance money for them. He has sent several hints to Mr.
Bicket for them, but Mr. Bicket or Mr. Ambrose ~~not being~~ not being
in the way the person that call'd for them could not receive them, and
now the answer that is given is, that they can neither deliver the Bibles nor
return the advance money till Mr. Williams has ballanced his account with Mr.
Bicket. Mr. Jennings is very much surpris'd at this, after so many
Assurances that he should have them with the Remainder of the Money.
Notwithstanding the advertisement that was given to other people, and hopes
that you will take Effectual Care that he shall not be finally disappointed of
having the 20 Copies. He would have wrote to you himself if a Rheumatism
in his hand had not disabled him, and desires he or I may hear from you on
this head at your first Conjunction.

has taken the pains to do so, you will allow it to be published at your

Rev^d S^r. I was to wait on you ~~last~~
Yesterday with an Acct. of the progress of the
Impression of the Psalter & N. Test. in Arabick

~~and~~ a very agreeable Letter from Paris con-
-cerning the disposition of the Learned Dⁿs of
Sorbonne to recommend our Liturgy in France
which when I have the Honour to see you shall
be communicated.

In the mean time I take leave to req^d you
that the ^{New Font of} Arabick Types is just now finished, &
the Society are looking out for the best Copy
of the Psalter in Arab. ^{which they can find} to begin the impression
~~which~~ till those expected from Aleppo arrive, wherein they
will have the Sentiments of His Grace the A. Bp and
other Learned Persons ~~before they proceed to be~~
~~of a good Copy before they proceed.~~

The Society have contracted with W. Palmer
 a Printer in Great Swan Alley near the Charterhouse
 to undertake the printing part and with W. Solomon
 Negri the learned Native of Damascus now in
 London for the correcting part and it is wished
 that the Corrector ^{accommodated with a lodging} might be ~~lodged~~ somewhere near
 the Press to save time & ~~convenience~~ to supervise the
 work with ~~the~~ greater ~~application~~ diligence to prevent
 as much as possible all mistakes; ~~and of~~ This
 was so ~~longer~~ suggested to the Com: of the Society
 but it occurred to them that the Master of the Char-
 -terhouse was best able to advise the Society in
 lodging this good man.

He pays $\frac{1}{2}$ a Crown a week ^{for lodging now} ~~which he is~~
 by wh. you may judge what ^{plain} accomodation w.
 suffice, and if a Room untrunished can be had
 on ~~easy~~ terms near the Charterhouse W. Palmer
 offers to furnish it. ~~for him.~~ But were it a
 favour that could reasonably be aff'd, I'm sure
 the Society would be glad to have W. Negri
 lodg'd under the Protection of the Master of the
 Charterhouse, and then he would be admitted to the
 privilege of walking daily in ^{your polite} ~~the~~ ^{fine} Wilderness, &
 as a ~~area~~ resemblance to the pleasant Groves
 of Damascus, which W. Marmorell has so Imphe-
 -tically described, and wh. W. Negri ~~then~~ reflects on
